avg1_8 avg1_20

4.88542 4.83542

1. The course objectives and assignments were clearly explained.
2. The work required in this class was closely related to the objectives of the course.
3. The instructor was well organized and prepared for each class.
4. The instructor presented material in an understandable and interesting way.
5. I learned a great deal from this class.
6. I would recommend to other students that they take this course with this instructor.
7. The instructor treated students with respect.
8. Grades were assigned fairly and impartially.
9. The instructor gives clear explanations.
10. The instructor makes good use of examples and illustrations.
11. The instructor seems to enjoy teaching.
12. The instructor maintains an atmosphere of good feeling in the class.
13. The instructor made the course difficult enough to be stimulating.
14. The instructor appears to have a thorough knowledge of the subject.
15. The instructor teaches near the class level.
16. Written assignments make students think.
17. One real strength of this course is the classroom discussion.
18. I participated actively in class discussion.
19. I learned to apply principles from this course to new situations.
20. I deepened my interest in the subject matter

CHFD 3930: Students' Written Evaluations

List two things you believe were done particularly well in the teaching of this course.

How well you incorporated and/or accommodated our different learning styles; I liked the discussions and the exercises (surveys).

I loved Kelly's attitude about teaching. She showed respect and genuine concern for all students; great guest speakers; loved the class, loved the instructor, I learned a great deal, especially from researching for the term paper.

You have been one of my favorite professors! I enjoyed how you made class very interesting and engaging; you were fair and always asked us for our input before making decisions about the class.

You knew the topic thoroughly and conveyed your knowledge well; the topic was made more interesting through DVDs, discussion, etc.

Interesting discussions; instructor genuinely cared about the students.

The different panels were very insightful; I liked how all of your information was neat and organized.

One of the best instructors I have had at UGA! GREAT job!

Lectures – the outline of lectures and the reference of the book throughout the chapter lectures helped me learn and understand the material; the extra assignments also helped with showing how much I understood the material but didn't do as well as I had hoped on some of the tests.

I thought everything was done well; she really cared about what we thought about the course.

Compassion for students; great knowledge of subjects; LOVED THIS CLASS!

Kelly, I really enjoyed the class and I feel that you did a wonderful job of accommodating us all as best you could. I wish I had more time to take another class with you.

Variety of class activities; interest the teacher had in the class and how she cared about the students.

The accommodation after our tests and quizzes to help our grade out was so helpful and understanding; the class discussions/movies were so helpful.

Loved the lectures and explanations! Great teaching style!

Listening to students suggestions; bringing interesting articles into the class material.

Class discussions were great; I liked how I was able to easily contact my instructor after class.

In depth discussions.

The format of the class was real great; the availability of the instructor to meet outside of class was very helpful.

Class discussions were always interesting and fun; guest speakers were great!

The variety of sources for teaching the course – DVDs, guest speakers, panel discussions. I really appreciated how understanding Kelly was about my situation out of class and her willingness to work with that; I felt that the teacher was particularly interested in the course material and teaching it. She was always very prepared and got assignments and tests returned in a very timely manner.

Knowledge from teacher; instructor made us read.

List two things you think should be done to improve this course.

More writing assignments; maybe Webct discussion postings to implement reading.

Like the idea of promoting diversity, but thought too much emphasis was given to gays and lesbians.

I wish PowerPoint would have worked, but I understand that's not your fault; it was hard to take notes and keep up with you because you went so fast.

PowerPoint – not your fault.

I think exams were a little too difficult and extensive. The wording/vocabulary was sometimes too difficult to understand. Way over my head.

Absolutely nothing! ☺

More discussions, small group activities, and interactive activities; visual with lecture.

Nothing, I enjoyed this course a lot and I wish I could be around to have Kelly as my professor again.

More interactive, less lecture; Not so much standing behind podium with arms crossed.

PowerPoint lectures. I don't have enough ink to print off all the articles and notes for every class.

The tests were very detailed and over lots of material.

Nothing! Very interesting!

Just a little more clarity on assignment instructions; more speakers.

More tests so each test can be shorter.

Nothing! Great course!

Enthusiasm in class; more class discussion led by students.

I think that when Kelly lectures from book material, it would be helpful to include more examples from personal experience.

15. This class challenged and expanded my views on diversity.

CHFD 4330: Students' Written Evaluations

List two things you believe were done particularly well in the teaching of this course.

Well prepared for class and listening to what the class wanted to get out of it and fulfilled that; all of the classes were different yet interrelated.

I could not say all of the wonderful things I thought about this class AND Kelly, there isn't enough room! This is honestly the best class I have ever taken. I have never learned so much about myself and been challenged in so many ways. I'm sad it's over!

Every assignment was explained extremely well and all were graded fairly; the instructor was clearly knowledgeable on all topics discussed and she seemed to genuinely care that we become more diverse students.

I absolutely loved this class. Each day was full of wonderful stories, uplifting discussions, and I was able to grow as a person; Kelly was by far the BEST teacher I have ever had. She was fair, respectful, helpful, and kind!

Testing of knowledge through quizzes instead of long tests; I really liked how everyone participated as asked.

Kelly was so passionate about the subject of diversity. Being from Canada, she brought a completely different perspective to the table; she was so respectful of all of our opinions, which caused me to respect her even more.

Kelly's enthusiasm is outstanding! She is very knowledgeable about her subject matter; Kelly has great, interesting lectures and incorporates lots of stimulating class discussion.

The guest panels were excellent, especially the religion and gender panels. Great ideas! Really enjoyed the discussion aspect of the course. Kelly does an excellent job of making students feel welcomed and safe to express their feelings 😊

Covered a very large amount of info and lots of topics, very well done. I feel like I learned something about everything; good variety of teaching methods, discussion, group work, activities, video assignments. This was my favorite class this semester. Thanks so much!

I really enjoyed the discussions. The topics were great! All the readings were interesting. I enjoyed the ones relevant to people's daily struggles.

Variety of activities (movies, games, quizzes, readings, etc.); organization.

Diversity was taught extremely well in this class. The teacher was knowledgeable of the subject matter. I learned more about other cultures, which was my main reason for taking the class; the discussion panels were awesome!

Open discussions were great. Leading questions by prof were thought provoking. She did a great job facilitating discussions; the papers and assignments were interesting to write and read. I enjoyed reading almost all of the assignments.

Diversity of topics; enthusiasm in teaching.

The variety of topics discussed.

Classroom discussion; guest speakers.

The panels and discussions presented to the class by the teacher; overall participation of the class.

I liked the panels; I also liked that there were no tests!

List two things you think should be done to improve this course.

The class was extremely enjoyable!

Make cultural immersion more researched.

Don't put long readings so close together 😊

Nothing!

Nothing! It was great!

Different time if possible, earlier; Cut out the long, academic journals 😊

Nothing

Not so many homosexual panels next time

Bias assessment program was kind of weird. Maybe come up with another way to ID biases.

Really think about the things that are presented to the class and make everyone even from the majority feel comfortable expressing their views.

More group projects.

More videos.

Some of the readings were too long and kind of hard to understand.
